
DL-2400 Heavy-Duty Brass Door Latch - Engineering Specification

Model DL-2400 | Rev C | Engineering

SPEC-DL-2400

Prototype sample document for the clickable demo. Not an official publication.

Rev	Date	Description
A	1978-05	Initial release.
B	1983-02	Updated materials and certifications.
C	1987-03	Throw dimension revised to 0.75 in.

> For professional use only. Service work must be performed by qualified personnel.

Materials

Section 2.1: Materials

All materials are as specified. Substitutions require an approved engineering deviation.

Component	Material
Latch body	Forged brass, alloy C36000
Springs	Phosphor bronze
Finish	US3 polished brass
Certification	ANSI/BHMA A156.13 Grade 1

Dimensions

Section 3.2: Dimensions

Throw: 0.75 in

Dimensions are in inches unless otherwise noted.

Dimension	Value
Overall length	4.5 in
Backset	2.375 in
Throw	0.75 in
Bore diameter	2-1/8 in

This revision supersedes all prior published dimensions. The latch throw changed from 0.625 in to 0.75 in.

Performance

Section 5.1: Performance

Cycle and corrosion ratings are verified to the referenced standards.

Property	Value
Cycle rating	500,000 cycles minimum
Corrosion resistance	96 hours salt spray
Certification	ANSI/BHMA A156.13 Grade 1

Notes

Section 7: Notes

This revision supersedes all prior published data sheets.

- Finish: US3 polished brass.
- Certifications: ANSI/BHMA A156.13 Grade 1.
